Continuous Ink Jet Printer

Inks and Consumables

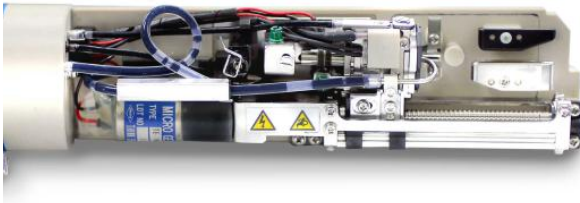

KGK Jet India an organisation that brings rich innovation capabilities and takes pride in its Japanese roots and Indian heritage. Our culture of collaboration, customer focus and passionate approach to solving challenges is reflected in every touch point of interaction with us.

Some of the reasons why our industrial inkjet printers (continuous inkjet printers, thermal inkjet printers and drop on demand printers) are the market leaders in their respective segments are

“From our humble beginnings, we have evolved today to touch revenues of 150 million USD”

- Unmatched customer support
- A tradition of Successful Manufacturing
- Innovative Capabilities
- Balanced and competitive pricing
- Strength of technology
- Customised software to integrate client's ERP

Continuous Ink Jet Printer -CIJ

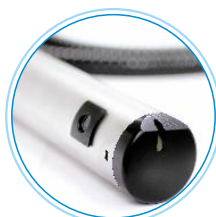

Our CIJ printer has boosted confidence of a customer on the reliability and cost effectiveness owing to the following features.

- ▶ Nozzle Capping Technology
- ▶ Service Management System (SMS)
- ▶ Auto Start & Stop Feature
- ▶ Unique Nozzle size
- ▶ Positive Air technology

These unique features of KGK Jet optimized consumption of Ink & Solvent (make- up) and saves up to 40% as compared to other machines. To keep your uptime high, we are continuously endeavouring to refine our high-precision, micro-processing and liquid drop formation technologies.

510ch

384ch

HQ-256ch

1200ch

KGK JET HQ1500

- Affordable print with 70mm height with 180dpi resolution.
- Practical feasibility to connect up to 4 heads together.
- Intelligent nozzle design for consistent printing at variable speed.
- Oil base ink allow smooth flow from nozzle.
- Ergonomically designed and easy operation with touch panel.

KGK JET HQC

Advanced inkjet printers ideal for printing characters from 2mm to 25.4mm. The head reservoir and the main body are separated thereby giving flexibility in operations.

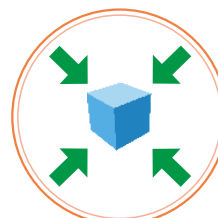

Separate Head Arrangement

In-Built Head Arrangement

Light Weight

Compact

Easy To Use

Thermal Inkjet Printers - TIJ

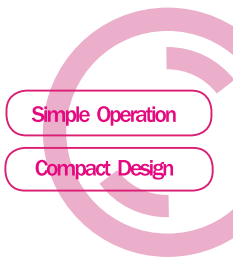

KGK JET HQ1000

- One touch replacement of cartridge, available in Blue, Black, Red & Green colour.
- Expandable I/O connection for host machine interface
- Maintenance Free, High Resolution, Most Economic.

Standard feature in all KGK Printers

- RS232 and LAN connectivity.
- Easy interface with weigher machine for accurate weight printing.

Print Examiners

KGK JET CHECKER PK410

- High speed image recognition with huge storage space.
- Detect presence, Absence, Possibility, Dot missing & Quality.
- Special camera excellent filter for best image capturing.
- 10.4 inch large screen for easy operation.
- Full-scale print inspection with simple operation.
- Automatic synchronization with printers, enable fewer operation steps and reduces human errors.

KGK JET CHECKER PK100

Inks & Consumables

KGK Jet develops speciality inks, for various types of substrate across industries, metal, plastic, ceramic and foodstuffs, each requiring different quality performance. Also IS-15495 compliance inks for printing, on food packaging free from harmful chemicals.

Edible Ink

Stealth Ink

UV curable ink
