Choose existing templates from Digital Library or customise you own templates!

Your quick, easy way of converting any paper audits to a digital system

**Audits, audits, audits -
it never stops!**

Managing audit and inspection processes is time-consuming and tedious especially when they are scattered in paper copies, spreadsheets and emails.

“My team spend hours, days filling, summarising and reporting different audits we have to conduct

“On average Care provider has to conduct 85 audits every year to be on top of their quality

“With recruitment so difficult these days, Care providers have to become more efficient

An easy-to-use, one-stop solution for managing all your audits, inspections and complaints

- Purpose-Built for Social Care
- Saves your employee time
- Easy as 1-2-3 to implement

Make your business compliance ready always

Book Demo Today

You can now successfully digitise the information intensive process of auditing, and reduce costs substantially, with turnaround times increased sevenfold.

More free time and resources helps focus on providing critical care.

EASY 1-2-3 IMPLEMENTATION

- **Step 1** - Transfer your current audit paperwork to an electronic format. **One audit/inspection at a time.** Adapt from pre-existing templates.
- **Step 2** - Set up roles, audit schedules, inspection dates, reminders & alerts. **One time set up complete!**
- **Step 3** - Input your data directly onto tablet or PC using the same format as before. **Review data, plan and evidence continuous improvements.**

BENEFITS

- Reduces Time Planning & Reporting
- Connect your Teams
- Complete Oversight
- Avoids Duplication
- Report Sharing with External Stakeholders

... and more !

**This solution is
purpose-built for
Social Care**

**Set-up time is only a few
hours. Assured help at
every step on your way.**

FEATURES

- Digital Template Library
- Role-based Access with Single Sign-On
- Automatic Scheduling and Notifications
- Built-In Action Planning and Evidencing
- Dashboard and Analytics

... and more !
